Important information About Your Pension

What is ScamSmart?

On the 1st July 2019 the Pensions Regulator and the Financial Conduct Authority launched a joint campaign to help prevent pension scams.

What is a Scam?

Scammers can be hard to distinguish from the real thing. Scammers design attractive offers to persuade you to transfer your pension pot to them or to release funds from it.

It is then invested in unusual and high-risk investments like overseas property, renewable energy bonds, forestry, storage units, or simply stolen outright. A scam can be in the form of emails, text messages, phone calls and letters.

How can I protect myself from being scammed?

Your LGPS pension cannot be transferred to another scheme as it is already in payment.

Therefore, it will not be affected by scammers.

However, if you have other pensions that are not in payment, you may be vulnerable to scammers.

Beware the tactics of pension scammers - unsolicited offers, offers of free reviews, time pressure.

For further information:

Visit the Financial Conduct Authority or the Pensions Regulator websites. Their contact details are shown below.

Brexit : How will it affect my pension?

The Local Government Pension Scheme (LGPS) is very secure, because the benefits you receive are set out in law. There will be no impact on the scheme pension that you are receiving in retirement, due to the UK leaving the EU.

Changes to the LGPS

From time to time, the Regulations are changed and the changes are backdated to include pensions that are already in payment.

A recent change affects the way some dependant's pensions are calculated and, if it has affected your pension, you should already have received a letter explaining how your pension has been increased.

Any future changes will be included in our newsletters.

Pensions Increase and Your April Payment

Each year, your pension increases to keep in line with inflation. This year's increase is 1.7% and is payable from 6th April 2020.

In certain circumstances your pension will not increase by the full 1.7%.

- If you reached your State Pension Age before 6 April 2016 and your pension includes any Guaranteed Minimum Pension that was accrued before 6 April 1988, this element of your pension will not increase. The increase on this part of your pension will be paid with your state pension.
- If your pension 'began' on or after 22 April 2019 a smaller, part-year increase will apply. The table below shows you how much your pension will increase. Your pension would normally begin the day after you leave your pensionable employment, or if you are in receipt of a dependant's pension, your pension would begin on the day after the last day of scheme membership of your late partner or parent. If you had a deferred pension that came into payment, the pension would begin on the date you have nominated.
- In exceptional cases your pension may have been based on a previous year's pensionable pay. If this is the case, the date your pension 'began' will be an earlier date. If you are in receipt of two or more pensions, each pension may have a different beginning date.

If your pension began:		Your pension will increase by:	
	on or before	21-Apr-19	1.70%
22-Apr-19	to	21-May-19	1.56%
22-May-19	to	21-Jun-19	1.42%
22-Jun-19	to	21-Jul-19	1.28%
22-Jul-19	to	21-Aug-19	1.13%
22-Aug-19	to	21-Sep-19	0.99%
22-Sep-19	to	21-Oct-19	0.85%
22-Oct-19	to	21-Nov-19	0.71%
22-Nov-19	to	21-Dec-19	0.57%
22-Dec-19	to	21-Jan-20	0.43%
22-Jan-20	to	21-Feb-20	0.28%
22-Feb-20	to	21-Mar-20	0.14%

How is the April payment calculated?

If your pension has been increased, the April payment has been calculated to include 5 days at the previous rate and 25 days at the new rate. This is because pensions increase comes into effect on the 6th April. Your full increase will be shown in your May payment.
